

Certified Snowfall Totals™

Prepared Exclusively For StoneWerks, LLC

New Jersey: April 2nd, 2018

Early April Winter Storm

With temperatures starting in the mid-upper 30s areas of light snow developed across the area starting 3-6am on April 2nd. Snow continued through the morning, becoming heavy with 1-2"/hr snowfall rates, as temperatures settled 32-33 degrees. Snow tapered to flurries and ended 9-11am with temperatures rising into the 40s during the afternoon.

Zipcode	City	Type	Total	Ice	Notes
07102	Newark	Snow	6.4"	0.00"	

Certification

WeatherWorks assures that the above Certified Snowfall Totals (CST)™ report is the result of a thorough analysis of meteorological data collected from both private and public sources. Our professionally trained CST™ analysts employ a scientific evaluation process, producing the most accurate and representative total for a location. WeatherWorks reserves the right to amend reports at any time upon further review and/or discovery of additional data.

About WeatherWorks: Since 1986, WeatherWorks has provided dependable meteorological services to thousands of clients in the private and public sectors by understanding the core principles and complexities of meteorology in addition to utilizing technological advances.
